Achieved

Milestones

- 06/12/2017: in production on SWH server
- 22/01/2018: poster at JSO2018
- 19/02/2018: in production on Hal-Inria (unannounced)

Actions done

- deposit feature & documentation via SWORD v2
- deposit client & walk-through presentation for FOSDEM
- poster submitted to Liber2018
- software deposit & moderation guides

Development

- elaborate error messages returning to Hal
- create a dedicated deposit view when browsing on the web-app
- sparse deposit

Communication

- poster at RDA's 11th plenary (21/03/2018)
- blog post about deposit (with events: JSO2018, RDA 11th plenary, Liber2018?)
- announcement with Inria and the CCSD when the service is ready

On Hal side

- missing crontab mechanism (deposit sent to SWH only while in moderation)
- missing error logs on the moderator view
